## FULL-STACK SOFTWARE ENGINEER

Full-stack software engineer specialized in interactive media. Currently using front-end development tools such as React, TypeScript, and Tailwind CSS. Experienced working in Agile teams and rapidly developing responsive applications with reusable components under tight deadlines.

Driven to improve user engagement and make ideas reality.

## SKILLS

**Languages** - TypeScript | HTML5 | CSS3 | JavaScript | Luau

**Frameworks & Libraries** - React | Tailwind CSS | Node.js

**Tools & Platforms** - Figma | Storybook | Jira | GitHub | Postman

**Testing, APIs & Data** - REST APIs | JSON | MongoDB | Vitest | Jest

## EXPERIENCE

### Software Engineer – Freelance

2020 Jan - Present

Remote

- Developed React applications with Typescript and Tailwind CSS based on Figma mockups, delivering pixel perfect responsive design across different devices.
- Integrating third-party REST APIs with custom hooks and context APIs, improving user engagement and satisfaction.
- Recognized for rapidly delivering high-quality applications under tight deadlines, contributing to project success and wins during code jams and sprints.

### Software Engineer – Electric City Aquarium & Reptile Den

2025 Jun - 2025 Aug

Remote

- Streamlined development workflows by documenting and testing UI with Storybook, creating a catalog of reusable components with consistent design and reducing development time.
- Wrote unit tests with Vitest, achieving 80% test coverage and reducing production bugs, increasing the confidence of stakeholders in the product.
- Improved team efficiency by collaborating in an Agile environment using Jira and GitHub, meeting sprint goals and exceeding stakeholder expectations.

### Assistant Manager – ColdStone Creamery

2021 May - Present

13027 Worldgate Dr, Herndon, VA 20170

- Took ownership of overseeing daily operations in a fast paced environment, ensuring smooth execution, and improving customer satisfaction.
- Mentored and guided team members in daily activities and practices, fostering a collaborative and high-functioning team.
- Built leadership, teamwork, and problem-solving skills transferable to collaborative software development.

## EDUCATION

Full-Stack Software Engineering - TripleTen Coding Bootcamp

2024 May - 2025 April
